The Expertise to Optimise Product Performance

We're not just adhesive experts. We're also disposable hygiene experts. Whether you're producing products for the adult incontinence, feminine care or baby care markets, our market knowledge keeps us current with what makes products stand out among consumers.

Differentiation begins with great performance.

Bostik has developed an extensive line of reliable tests to measure adhesive performance at every essential point of your finished product. Look to us for a professional and thorough product audit followed by solid recommendations to enable a dependable fix for any issues we find.

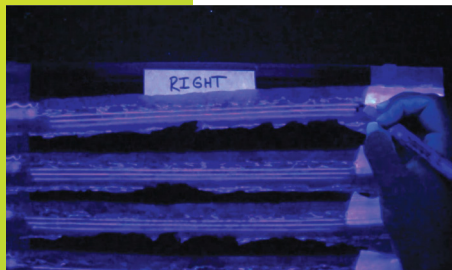

WHAT:

Adhesive performance testing, including creep, peel, shear, positioning, add on, core testing and more. Conclusions and recommendations to increase efficiency and performance and reduce overall costs.

WHERE:

Finished product taken from your line(s) and tested in our advanced facilities

Contact Bostik for availability and associated costs.

SMARTER VALUE.

Consistent, optimised product performance and improved profitability
